

Frontend Engineer PAID INTERNSHIP (pré-embauche) - 100% On site

About DecisiveAI

DecisiveAI is an innovative company that empowers organizations to achieve strategic goals by harnessing AI and data, developing AI-powered agents, and driving critical decisions, making it the perfect place for ambitious interns.

Requirements

- **Good proficiency in modern frontend frameworks** (React, Vue.js, or similar) and solid fundamentals in JavaScript/TypeScript.
- **Ability to translate ideas into clean UI components** and experience using **Figma** for mockups or prototypes.
- **Strong sense of design and user experience**, with attention to detail and usability.
- **Good grasp of software engineering fundamentals** (Git, testing basics, documentation).
- **Basic backend knowledge** (Python APIs, Node.js, or equivalent) and a willingness to touch other parts of the stack when needed.
- **Practical problem-solving skills** and the ability to work through ambiguity.
- **Portfolio, GitHub, or previous project experience** demonstrating your skills is a plus.

Mindset

- **Startup spirit:** adaptable, hands-on, and not afraid to go beyond “just frontend.”
- **Bias for speed:** iterate quickly, validate, and improve continuously.
- **Curious about design and technology** — enjoys solving both UX and technical challenges.
- **Proactive communicator** who collaborates well with designers, engineers, and product owners.

Why join us

- **Startup pace and learning curve.** If you want speed, responsibility, and massive skill growth in a short time, this is the environment for you.
- **Work on cutting-edge AI products.** You'll contribute to internal R&D projects in generative AI, automation, and data platforms, with opportunities to build components that evolve into real production features.
- **Flexible tech stack.** We choose the right tool for the job. You will be exposed to Python, JS/TS, modern frameworks, cloud platforms, MLOps, and more.

How To Apply

- Send your resume via email at hiring@decisiveai.ma with the subject line “Frontend Engineer Internship”.
- Mention in the email why you think you are a good fit for the position.
- Apply before **December 22nd 2025**.
